The AAPS Italian University Network Student Chapter (A.It.U.N.) was founded in Italy in 2006 to bring together and connect students and post-docs from several universities in the country. A.It.U.N. was created thanks to the support of the American Association of Pharmaceutical Sciences (AAPS) in a joint effort with the Italian Consortium TEFARCO Innova.

As its mission, A.It.U.N. aims to promote student participation in the activities of AAPS, increase student awareness of the latest advances in pharmaceutical sciences and stimulate interaction and exchange of ideas between young researchers.

Executive Committee Roster (2006-2007)
- Chair: Gaia Colombo, Ph.D. (Ferrara)
- Chair-Elect: Paolo Blasi, Ph.D. (Perugia)
- Vice-Chair: Paola Russo, Ph.D. (Salerno)
- Secretary: Francesca Selmin Ph.D. (Milano)
- Treasurer: Orazio Luca Strusi (Parma)
- Faculty Advisor: prof. Paolo Colombo (Parma)

WHO can become a member?
All undergraduate and graduate students and post-doctoral fellows of any Italian University are eligible to become A.It.U.N. members.

HOW to become a member?
1. Visit http://www.aitun.it
2. Download the application form
3. Fill it out and fax it back

Current members
Vincenzo AVERSA (University of Parma), Sara BALDELLI (Istituto di Ricerche Farmacologiche "Mario Negri", Milan), Francesca BUTTINI (University of Parma), Matteo CEREA (University of Milan), Stefano GIOVAGNOLI (University of Perugia), Aurélie SCHOUBBEN (University of Perugia), Fabio SONVICO (University of Parma), Caterina COMO (University of Parma), Chiara DEGIROLAMO (University of Parma), Stella FIORINI (University of Ferrara), Chiara GENNARI (University of Milan), Elena LOSI (University of Parma), Fabio MARRA (University of Parma), Simona MOTTI (Polo LITA), Cristina PADULA (University of Parma), Chiara PARLATI (University of Parma), Irene PASQUALI (University of Parma), Benedetta VIETTI (University of Parma).

WHY to become a member?
- Enter the “AAPS world”
- Discover education and career opportunities
- Interact with young minds
- Increase your pharmaceutical knowledge and research skills
- … have fun!
